

## OBJECTIVE:

To get a job as an AI Scrum Master / AI Project Manager, where I can leverage my 6+ years of experience in governance, risk management, compliance, and process improvement to support internal audit excellence, strengthen control environments, and drive operational integrity across the Canada and Bermuda Territory..

## Highlights of qualifications:

- Over 7 years of progressive experience in risk management, governance, and compliance, with exposure to process audits, control evaluation, and data-driven reporting across FinTech and HealthTech domains.
- Strong understanding of audit frameworks including SOC 2, and HIPAA compliance, ensuring audit readiness and operational transparency.
- Skilled in fraud detection, process improvement, and internal reporting, with the ability to synthesize findings into actionable recommendations for senior management.
- Good stakeholder communications, Sprint planning, backlog management and cross departmental coordination skills.
- Assisted agile adoption training of technical teams, matching business objectives with innovation objectives.
- Strong background in machine learning, data analytics, and deployment, with a focus on merging the AI technology and project implementation.
- Collaborative leaders focused on continuous improvement, team empowerment, and value-driven project delivery.

## Technical Skills :

**Agile Frameworks:** Scrum, Kanban, SAFe, Hybrid Agile(Sprint Planning & Review, Grooming, Daily Standups, Retrospective etc)

**AI & Data Tools:** Python, Scikit-learn, Jira, GPTs, AI risk assessment tools, MS Project, Clarity, Planview.

**PM Tools:** Jira, Confluence, Trello, MS, PMBOK and Agile methodologies, AI product lifecycle, Testing ,Data Analysis & Reporting

**Project & Risk Management:** RAID, Risk & Issue Tracking, Dependency / Change Management, Release, Delivery Roadmap.

**Documentation & Reporting:** User Stories, Burndown Charts, Sprint Metrics, Data Dashboards, Excel, Power BI, Python

**Other skills** - AI project delivery, Project governance, Project charter / scope definition, Budget forecasting, Resource allocation, AI solution implementation, governance reporting and compliance, AI-powered reporting, data visualization, mentored engineers and Agile team.

## Professional Summary

Managed end-to-end delivery of AI-enabled FinTech and HealthTech projects, overseeing scope, budgeting, risk, and compliance within Agile and hybrid frameworks. Led project governance reporting, stakeholder communication, and sprint execution using MS Project, JIRA, and Confluence. Skilled in risk assessment, control evaluation, and internal process audits, with a proven ability to ensure regulatory and organizational compliance. Strong background in Agile project delivery, stakeholder communication, and decision-making, reporting, and cross-functional governance.

### Scrum Master / Project Manager

Avizva Solutions - Gurugram, India

Dec 2023 - Aug 2025

- Managed three Agile teams - Domain API, Portal, and Production Support, totaling 8–10 members/team, ensuring sprint goals, backlog refinement, and delivery timelines were consistently met.
- Led risk-based assessments and ensured compliance with internal controls and data security protocols (HIPAA, SOC 2).
- Owned end-to-end delivery management, including sprint planning, release management, and post-release retrospectives.
- Migrated and optimized the Jira instance for improved sprint tracking, automation, and visibility across cross-functional teams.
- Ensured compliance with HIPAA and SOC 2 security standards, coordinating with InfoSec and QA teams to maintain audit readiness.

- Produced weekly delivery and performance reports for business stakeholders, supporting transparency
- Fostered a culture of continuous improvement by introducing Agile best practices and promoting collaboration between development, QA, and DevOps teams.
- Facilitate Scrum ceremonies, ensuring team adherence to Agile principles, Scrum of Scrum SOS, PI planning .
- Monitor sprint health, track KPIs, and ensure alignment with business objectives.

#### **Scrum Master / Project Manager**

Byteridge, India

Jun 2022 - Dec 2023

#### **ADP (HRTech Platform Revamp)**

- Led the complete revamp of the ADP portal, overseeing a 10 member tech team from project initiation to closure.
- Managed end-to-end project delivery, from kickoff meetings, requirement gathering, sprint planning, and stakeholder communication to final deployment and sign-off.
- Managed multiple project audits and sprint retrospectives, ensuring compliance with Agile governance frameworks.
- Implemented documentation standards and quality control metrics that improved audit traceability and delivery accuracy.

#### **Rapipay (FinTech)**

- Directed four Agile teams - Wallet, Authentication, and two microservice teams (Payment Gateway and Communication Service), managing 40+ professionals overall.
- Supported deployment and operational reviews for fintech applications, verifying data integrity, fraud prevention, and adherence to RBI and client policies.
- Oversaw API integrations, payment gateway orchestration, and wallet system scalability for high transaction volume environments.
- Drove release management, risk tracking, and sprint reviews to ensure timely delivery and compliance with regulatory standards.
- Partnered closely with product owners and client stakeholders to deliver roadmap alignment and business value realization.

#### **Scrum Master / Project Manager**

CapParis, Paris, France

Sept 2020 - May 2022

- Directed Agile ceremonies, backlog management, and stakeholder communications.
- Collaborated with cross-functional teams to resolve impediments and maintain project momentum.
- Guided teams in Agile practices, enhancing collaboration and delivery outcomes.
